

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable. I hadn't been able to afford it until recently and still use calling cards because I can't afford regular long distance calls on land lines and I'm a physician!

I use my wireless phone for emergencies. I don't want to lose that; my car has more than 100,000 miles on it.

Sincerely,

Lucas Lund
